## REGISTRATION FORM

### ABOUT UHC

Universal health coverage (UHC) means that all people and communities can use the promotive, preventive, curative, rehabilitative and palliative health services they need, of sufficient quality to be effective, while also ensuring that the use of these services does not expose the user to financial hardship.

The goal of Universal Health Coverage is to ensure that all people obtain the health services they need without suffering financial hardship when paying for them. This requires a strong, efficient, well-run health system; a system for financing health services; access to essential medicines and technologies; and a sufficient capacity of well-trained, motivated health workers. Ensuring that every individual in this diverse nation obtains the needed health services without suffering financial hardship.

### ABOUT SPHERE

Sphere is a society struggling for enhancement of public health education, public health research and empowerment of community. Sphere is a group of people who are highly motivated for the betterment of public health, research and education.

### ABOUT SEMINAR

This National Seminar on Universal Health Coverage (UHC) invites nursing students and educators, clinical nurses, ANMs and other healthcare professionals from agencies and organizations to come together to learn, share and deliberate on the role of nursing in delivering UHC and how best the nursing workforce can contribute towards achieving high quality and cost effective UHC

### ABOUT JIET

Vision of JIET is to become a globally recognised institution in technical and professional education and to provide career and research oriented value based education to serve the society. The mission of institute is to develop a holistic educational approach that blends fundamental and hands on experience.
